

Barcode Separator

The Barcode Separator function can recognize the barcode number on an invoice or a receipt and then lets the scanned image saved in a file or directory using the barcode number. It helps office and factory users to save time on categorizing piles of invoices or receipts.

Remove Blank Page

The Remove Blank Page function can remove the blank pages, helping users to avoid examining a pile of documents manually after the scanning is done. Therefore, users can scan documents in more comfortable and satisfactory ways, no matter how massive of documents are.

Descreen

The Descreen function can eliminate the moiré patterns when you scan a screened original, such as pictures from the newspapers or magazines. Hence, users can get pristine and clear scanned images.

Smart Threshold

The SmartThreshold function enables Microtek's scanners to define the best level of a threshold used in high-contrast and black-and-white images automatically, improving the clearance and readability of black-and-white documents.

Advanced Ultrasonic Detecting Technology

Equipped with an ultrasonic sensor, the ArtixScan DI 3130c is able to detect the thickness between overlapping pages and then to stop continuous feeding of multiple pages, efficiently preventing the happens of mis-feed or double-feed when delivering papers through the ADF.

Superb Ability to Handle Documents in Versatile Materials

ArtixScan DI 3130c lets users easily digitize credit cards, business cards, bank statements, legal documents, insurance papers, and medical records in just seconds.

Documents, checks, or cards workflow

Perfect for Tight Spaces

The small footprint and versatile tray design of the ArtixScan DI 3130c makes it ideal for using on desktops and countertops or anywhere there are tight spaces. The three-way design allows scanners to be used with the built-in eject tray closed, opened, or half-opened with stopper to suit your workspace.

Scanwizard DI

Invented and owned by Microtek, ScanWizard DI has several handy functions for users to choose. Refer to the followings for the details.

Auto Document Rotation

The Auto Document Rotation function enables the scanner to rotate each saved image into a readable direction automatically based on specified OCR language. Users do not need to rotate the document manually when scanning, saving time and energy.

Remove Punch Hole

Some businessmen do not like scanned images, such as invoices or tickets, with numerous punch holes. The exquisite Remove Punch Hole function provided by the ScanWizard DI can handle and release these concerns easily.

Auto-crop and Auto-deskew

In order to save people's vigor, the Auto-crop and Auto-deskew function enables Microtek's scanners automatically detect the size of the image and then crop the frame to fit the image. At the same time, they can also remove the unwanted black borders.

Color Dropout

In most cases, users are pursuing clearer and more accurate appearance for scanned materials. Therefore, the color dropout function can help users to remove red, green and blue colors from the original documents and hence able to improve the readability of them.
