

A3 Multi-functional desktop document camera

H-Screen 871L

A3
13MP

Self-timer and smart shooting

Multi-images cropping

Video recording

Multilingual OCR

Auto de-skew correction

Images merging

Auto barcode recognition

Dimmable LED lights

Support different file format (JPG, EXCEL, PFD)

H-Screen 871L

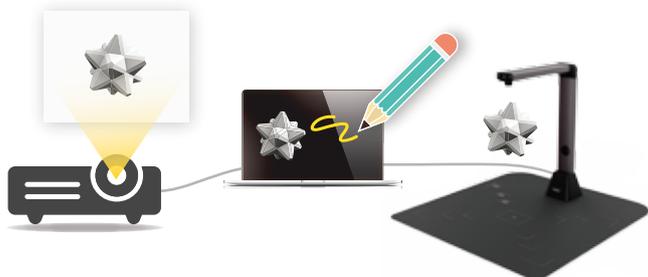

Capture high-resolution images in just one second

Capture high-resolution images with the 13MP CMOS autofocus camera, which can catch A3, A4, A5, business cards, IDs, and other objects images in one second.

Display of real-time videos

It can be connected with a projector in order to display a real-time video, you're able to record videos, audios, and make notes in the video.

Additional USB external port

Various USB devices such as USB hard drives can be connected, achieving a multi-purpose camera and meeting customers' requirements.

Dimmable LED light

Dimmable LED fill light. Three-level brightness lights with a touch switch, effectively compensate for the ambient light.

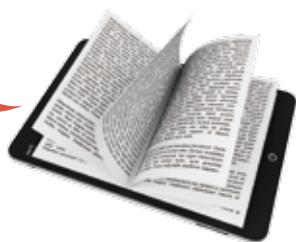

Images cropping

It can crop multiple images and save them separately, enabling you to shoot several objects at once.

Multilingual OCR

The built-in OCR engine can recognize more than 100 different languages, and output as an editable file. It's available to process numerous documents and preserve different color stamps by output function.

Multilingual
OCR

Self-timer and smart shooting

Burst mode (multi-shots) with time interval or automatic page-turning detection in order to increase digitalizing efficiency.

Auto barcode recognition

It can read 1D and 2D barcodes, convert the results into Excel /Text files, and save the barcode images automatically. You're also able to scan the QR code in order to open the linked webpage.

Feature-rich software CamShop

CamShop integrates image capture, processing, and application with powerful image capabilities. It can preserve red or blue print, repair damaged document edges, image cropping and de-skew correction, page-turning detection, and so on, you can also print the result directly, send by email files or record a video.
